# Handheld Inventory Management Solution

Designed to increase sales and boost profitability on the go

Integrated to ACCEO Profitmaster

## Track products

Get a wealth of information on products instantly and conveniently. Eliminate the use of paper documents and scan products directly from pallets.

## Cycle counts

Speed up your targeted, cycle, and complete inventory counting processes to expedite updating your inventory. Take physical counts directly from the shelves using the integrated barcode scanner.

## Quick label printing

Print shelf labels to replace old ones while connected to your Bluetooth label printer.

## Purchase orders

Order products instantly by scanning their shelf labels. Create purchase orders directly from the aisles, validate barcodes automatically and verify items already on order.
