

# A New Generation of Price Checkers Has Arrived!

Transform the customer experience with the ultimate in self-service!

## Two models, one high performance Android platform

### CC600

With the affordable 5-inch Zebra CC600, you can put the convenience of price checks in every aisle or department.

### CC6000

The 10-inch Zebra CC6000 is a bigger brighter canvas to display your product prices and your brilliant banner colours.

### Upgrading to a newer model will lead to:

- An increase in customer service and satisfaction, leading to repeat business and the profitability that comes with that.
- An increase in staff productivity; when shoppers can handle more routine questions on their own, associates can redirect personal attention to more complex needs, thus strengthening customer relations.

**Get a competitive edge with the ultimate self-service platform!**
