# It's time to bring your solution to the next level!

In keeping with our commitment to offer you the best solutions possible, we are pleased to announce **several new features** that will apply to your **Omni solution**, as part of our recent systems upgrade.

## New Features

### New Features - Omni

1. New graphical Price Checker using Android platform
2. New Microsoft Excel integrations
3. New Sales Analytics module
4. Many reports now available in PDF format
5. RF/TC26 improvement allows modification of min./max., economic quantities, and product status
6. Added validation of minimum margin in sales by product report
7. Delivery document: All lines are printed

### New Features – POS

1. Fast entry of cash payments - Denomination button introduced
2. Consult customer history:
  - Invoices displayed on screen
  - Identification of item purchased
  - Purchase history allowing to copy a product into the current transaction
3. Print memos on the pick list
4. Delete/Cancel sales orders at POS
5. Search specifically by product with available quantity
